18th March 2020

To all of our Valued Customers,

As part of our plan to manage the impact of the Covid-19 virus, we will have our sales and some customer service staff working remotely with effect from this week. We are responding to Government guidelines to ensure the wellbeing of all our staff , customers and the wider community.

We are supporting our staff with this change in how we operate to ensure we provide you with the level of service you expect.

We will only make site visits when absolutely necessary , it is safe to do so and with your Total agreement.

We will monitor the situation daily to safeguard the continuity of service to our customers.

All the fundamentals of our business continue to operate as normal, with high levels of stock in place in Swindon to service existing enquiries / orders and deliveries continuing to be received from our factories. We do not see this shifting, although we will communicate should the situation change. Any such communication may be at short notice as you will appreciate.

We would like to take this opportunity to thank you for your ongoing support during these unprecedented times.

Please call me if you have any questions.

Yours sincerely,

Pete Gladwin

Pete Gladwin

Managing Director
